Dr. Mattias Anghileri

Why should you attend?

Dr. Anghileri will be sharing a complete insight about the Damon Ultima System - the first Full Expression System, focusing on what remains the same and what changes in the system with clinical tips and cases to understand how to improve the results we can achieve for our patients.

Learning objectives

Find out the most important advantages and differences between the Damon Ultima™ system and previous versions.

Cover 10 clinical & practical examples to compare and understand Torque Prescription. Find out through different clinical cases how to evaluate the changes in PSL

Your benefits

- ▶ Better treatment outcomes for patients
- ▶ Greater understanding of advanced orthodontic mechanics
- ▶ Boosted confidence in using the Damon Ultima™ System
- ▶ Practical tips to enhance clinical practice
- ▶ Compare and contrast with previous Damon versions
